4. First aid measures

4.1. Description of first aid measures

General
In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

Inhalation
Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.

Eyes
Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.

Skin
Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.

Ingestion
N/A. Material generally recognized as safe.

4.2. Most important symptoms and effects, both acute and delayed

Overview
Eye Contact: Irritant characteristic of mild organic acids.
Skin Contact: Mild irritant.
Inhalation: None known for liquid product.
Comments: If exposure and symptoms occur seek immediate medical attention.

See section 2 for further details.

Eyes
Causes serious eye irritation.

Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions
Do not allow spills to enter drains or waterways.
Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up
Precautions in Case of Spill: Absorb spill with inert materials then place in a chemical waste container, neutralize with soda ash or lime. For large spills, dike and isolate spill for later disposal, neutralize with soda ash or lime. Always follow local, state and federal government regulations. Immediate cleanup of any spill is recommended. Disposal method: Dispose of in accordance with local, county, state and federal regulations.

8.2. Exposure controls

Respiratory
Do not inhale vapors. Engineering or administrative controls should be implemented to reduce exposure. Use NIOSH recommended respirator if needed.

Eyes
Chemical splash goggles.

Skin
Wear work gloves when handling.

Engineering Controls
Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Other Work Practices
Fresh water supply should be available. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details. - [Prevention]:
